

## Futuraskolan International Bergtorp Open House

Futuraskolan International Bergtorp has offered quality education since 1974. With an international curriculum and bilingual teaching, Futuraskolan has the best conditions for getting motivated students and excellent study results.

**Sports Profile** Futuraskolan has offered a sports profile, which has further added to the motivation of students when they can practice their sports during school hours.

**Dans/Music profile** Students perform different styles of music concerts and drama performances. They compose their own songs and record them. The students develop into a choir singing 4 part. The dance students perform at different events and participate in dance lessons.

**Global Citizens profile** In Global Citizenship program, we will work with focus on different areas of communication and societal development. Our aim is to give our students an opportunity to broaden their perspectives by looking into the world through various projects in the form of school collaborations and exchanges and other projects where we learn how people live their lives in other countries and how we can be an active participant in global improvement.

**You are welcome to  
Futuraskolan International Bergtorp Open House  
on January 24th, 17:00-20:00  
to hear more.**
